EDUCATION

SJR College of Science, Arts and Commerce – BCA (*Bachelors in Computer Application*)
CGPA: **9.49** | Bengaluru City University

[July 2021 – October 2024]

SKILLS

TECHNICAL SKILLS-

- Programming Languages: Java, Python, JavaScript, TypeScript, C#, C++, C.
- Web Frameworks & Full-Stack Development: Django, Angular, Dot Net.
- Backend & Distributed Systems: MySQL, SQL Server, PhpMyAdmin, Xampp.
- Coursework: Agentic AI, Angular .Net Development, Django Python Development, Software Engineering.
- Testing & Application Security: Selenium Web Driver.
- CI/CD: Netlify, GitHub.
- Core Concepts: Prompt Engineering, Chain-of-Thought Reasoning (CoT), Object-Oriented Programming, Data Structures and Algorithms.

SOFT SKILLS-

- Communication & Cross-functional Collaboration, Leadership & Mentorship, Analytical Thinking & Problem-Solving, Adaptability & Continuous Learning, Time Management & Attention to Detail.

PROFESSIONAL EXPERIENCE

Technical AI Research Analyst

[Oct 2025 – Present]

Keywords Studios, Bengaluru

- Leading and Mentoring Research Associates in executing prompt engineering tasks, data evaluations, and AI model performance testing: ensuring quality, accuracy, and adherence to project goals.
- Evaluating and optimizing outputs from Research Associates by identifying gaps in reasoning, prompt design, and model responses to improve the overall reliability and responsiveness of Agentic AI systems.
- Applying advanced concepts of Prompt Engineering and Chain-of-Thought Reasoning to enhance AI model reasoning depth, contextual understanding, and decision-making precision.
- Collaborating cross-functionally with Senior Engineers and Project Leads to troubleshoot system-level issues, fine-tune large language models, and streamline AI data collection workflows.
- Driving continuous improvement initiatives by analyzing feedback patterns, implementing optimized training datasets, and ensuring that AI models are trained to perform seamlessly, accurately, and efficiently.

AI Research Associate

[Jun 2025 – Sep 2025]

Keywords Studios, Bengaluru

- Actively learning and applying Prompt Engineering and Chain of Thought Reasoning to improve the performance of systems.
- Collaborating with Seniors in debugging, fine-tune, and optimize Agentic AI Models, gaining hands-on experience with AI Core frameworks and model orchestration tools.
- Training Agentic AI Model for one of the “MAANG” companies.

PROJECT EXPERIENCE

[Gym Management System](#) | *Technologies: Bootstrap CSS, Django Python, PhpMyAdmin – MySQL*

[Jan 2025]

- Built a Gym Management System with Admin & User roles, automating customer tracking, membership management, and payments, leading to a 30% increase in operational efficiency.
- Executed comprehensive manual testing to detect and resolve critical bugs, improving system stability by 20%.

CERTIFICATIONS

- Awarded a certificate for “Foundational C# from Microsoft”.
- Achieved certification in “Django MTV Framework from Great Learning”.
- Earned “Dot Net Fundamentals from Microsoft”.
- Certified in “Introduction to Selenium” through Simplilearn Skill-UP.

ACHIEVEMENTS

- Participated in “Google Cloud Ready” Program 2023, reaching the Ultimate Milestone.
- Actively engaged in “Google Cloud Arcade Game” achieving Diamond League Rank with 124,515+ points.
- Successfully completed the “30 Days of Code” challenge on Hacker Rank.
- Enrolled in Leet Code’s “Top Interview 150” and “Leet Code 75” challenges.

LANGUAGES & INTERESTS

- English, Kannada, Hindi, Marathi.
- Exploring Emerging Technologies, and Eagerness to Learn and Upskill the knowledge.
- Learning from Open-Source Contributions.
